Subject Index of Volume 40

Acetonitrile
[^{205}Tl]-thallium NMR study of thallium(I) and thallium(III) fluorometalates in, 71
Acetophenone
partially fluorinated heterocyclic compounds; plausible mechanism for formation of Fischer indole product from acetophenone 1,3,4,5,6,7,8-heptafluoro-2-naphthylhydrazone in which o-fluorine is lost, 51
Acetylenes
perfluoro- and polyfluoro-alkyl thienyl; facile synthesis of, 15
Acids
fluorocarbon derivatives of nitrogen; synthesis of some unsymmetrical aromatic azo-compounds via diazotisation of fluorinated aryl- and *N*-heteroalkyl-amines in hydrofluoric or sulphuric acid, 147
reaction of some 3- and 4-fluorooxetanes with, 201
synthesis of 3-fluoroaspartic acid, 99
Alkynes
facile synthesis of perfluoro- and polyfluoro-alkyl thienyl acetylenes, 15
photoreactions of tetrafluorodiphosphine with, 41
Addition
synthesis of F-alkyl isoxazolidines by 1,3-dipolar cycloaddition, 63
Amines
fluorocarbon derivatives of nitrogen; synthesis of some unsymmetrical aromatic azo-compounds via diazotisation of fluorinated aryl- and *N*-heteroalkyl-amines in hydrofluoric or sulphuric acid, 147
reactions of N-polyfluorophenylcarbonimidoyl dichlorides with primary and secondary amines: kinetics and mechanism; synthesis of polyfluorinated carbodiimides, chloroformamidines, guanidines and benzimidazoles, 217
Aminoglutethimide
and glutethimide; synthesis of fluorinated derivatives of, 81
Aromatic compounds
some new approaches to modifying aromatic and heteroaromatic compounds by means of fluorine-containing substitutes, 247
ESCA investigation of low energy electron beam polymerisation of hexafluorobenzene, 419
fluorocarbon derivatives of nitrogen; synthesis of some unsymmetrical aromatic azo-compounds via diazotisation of fluorinated aryl- and *N*-heteroalkyl-amines in hydrofluoric or sulphuric acid, 147
one bond $^{13}C-^{19}F$ coupling constant as criterion for fluorine back donation to an electron deficient carbocationic center; application of tool of increasing electron demand to α-fluorodiaryl carbenium ions, 319
organic fluorine compounds; preparation of functionalized trifluoromethylated compounds using 1-phenyl-sulphonyl-3,3,3-trifluoropropene, 171
partially fluorinated heterocycles; formation of fused-ring 3*H*-azepine derivatives; 6,7,8,9-tetrafluoro-2,4-diphenyl-3*H*-1-benzazepine and 6,7,8,9,10,11-hexafluoro-2,4-diphenyl-3*H*-naphth[2,1-b]azepine, 109
partially fluorinated heterocyclic compounds; plausible mechanism for formation of Fischer indole product from acetophenone 1,3,4,5,6,7,8-heptafluoro-2-naphthylhydrazone in which o-fluorine is lost, 51
polyfluoroaromatics; excursion in carbanion chemistry, 387
reactions of N-polyfluorophenylcarbonimidoyl dichlorides with primary and secondary amines: kinetics and mechanism; synthesis of polyfluorinated carbodiimides, chloroformamidines, guanidines and benzimidazoles, 217
reduction of benzotrichlorides to benzal chlorides, 359
stereoregular fluoropolymers; ring-opening polymerisation of N-pentafluorophenylbicyclo[2.2.1]hept-5-ene-2,3-dicarboximide, 331

© Elsevier Sequoia/Printed in The Netherlands

synthesis:
of 2,6-diformyl-4-trifluoromethylphenol, 23
of F-alkyl isoxazolidines by 1,3-dipolar cycloaddition, 63
and stereoisomer separation of difluoro-[2,2]paracyclophane, 33
Aspartic acid
3-fluoro-; synthesis of, 99
Azepine
partially fluorinated heterocycles; formation of fused-ring 3*H*-azepine derivatives; 6,7,8,9-tetrafluoro-2,4-diphenyl-3*H*-1-benzazepine and 6,7,8,9,10,11-hexafluoro-2,4-diphenyl-3*H*-naphth[2,1-b]-azepine, 109

Bismuth
one step synthesis of NF_4BiF_6, 59
Butane
fluorination of, over cobalt trifluoride, 283

Carbanion chemistry
excursion in; polyfluoroaromatics, 387
Carbenium ions
one bond $^{13}C-^{19}F$ coupling constant as criterion for fluorine back donation to an electron deficient carbocationic center; application of tool of increasing electron demand to α-fluorodiaryl carbenium ions, 319
Carbon bond
one bond $^{13}C-^{19}F$ coupling constant as criterion for fluorine back donation to an electron deficient carbocationic center; application of tool of increasing electron demand to α-fluorodiaryl carbenium ions, 319
Chlorine
reactions of N-polyfluorophenylcarbonimidoyl dichlorides with primary and secondary amines: kinetics and mechanism; synthesis of polyfluorinated carbodiimides, chloroformamidines, guanidines and benzimidazoles, 217
reduction of benzotrichlorides to benzal chlorides, 359
unusual Cl-F exchange reaction on halogenoalkylthioetherketones, 365
Cobalt
fluorination of butane over cobalt trifluoride, 283
Cycloaddition
1,3-dipolar; synthesis of F-alkyl isoxazolidines by, 63
Cyclophane
synthesis and stereoisomer separation of difluoro-[2,2]-paracyclophane, 33

Diazotisation
synthesis of some unsymmetrical aromatic azo-compounds via, of fluorinated aryl- and *N*-heteroalkyl-amines in hydrofluoric or sulphuric acid; fluorocarbon derivatives of nitrogen, 147
Dienes
synthesis and isomerization of 2,5- and 2,6-substituted *F*-hexadienes and heptadienes, 183

Elastomer
polymer chemistry; model compounds related to hexafluoropropene-vinylidene fluoride elastomer, 261
Electrochemical reduction
of some graphite fluorides in propylene carbonate, 1
Enthalpy of formation
of tungsten thiotetrafluoride, 139
Ethers
synthesis of perfluoroethers by liquid phase fluorination, 349
Exchange reaction
unusual Cl-F, on halogenoalkylthioether-ketones, 365

Fischer indole product
plausible mechanism for formation of, from acetophenone 1,3,4,5,6,7,8-heptafluoro-2-naphthylhydrazone in which o-fluorine is lost; partially fluorinated heterocyclic compounds, 51

Fluorides
Electrochemical reduction of some graphite fluorides in propylene carbonate, 1
Fluorocarbon derivatives of nitrogen; synthesis of some unsymmetrical aromatic azo-compounds via diazotisation of fluorinated aryl- and *N*-heteroalkyl-amines in hydrofluoric or sulphuric acid, 147
Formation of stabilized zirconia with rare earth fluorides, 375
Graphite anode reaction in KF_2HF melt, 407
One step synthesis of NF_4BiF_6, 59
Polymer chemistry; model compounds related to hexafluoropropene-vinylidene fluoride elastomer, 261

tri-
Fluorination of butane over cobalt trifluoride, 283

tetra-

Enthalpy of formation of tungsten thiotetrafluoride, 139

Fluorination

Of butane over cobalt trifluoride, 283

Liquid phase; synthesis of perfluoroethers by, 349

Fluorine

Some new approaches to modifying aromatic and heteroaromatic compounds by means of fluorine-containing substitutes, 247

One bond $^{13}C-^{19}F$ coupling constant as criterion for fluorine back donation to an electron deficient carbocationic center; application of tool of increasing electron demand to α-fluorodiaryl carbenium ions, 319

Partially fluorinated heterocyclic compounds; plausible mechanism for formation of Fischer indole product from acetophenone 1,3,4,5,6,7,8-heptafluoro-2-naphthylhydrazone in which o-fluorine is lost, 51

Thermal rearrangement of *cis,cis*-1-fluoro-2-methyl-3-vinylcyclopropane; kinetic effect of single fluorine substituent, 119

Unusual Cl-F exchange reaction on halogenoalkylthioetherketones, 365

Fluoro-compounds

F-alkyl iron(II) compounds, 129

Fluorocarbon derivatives of nitrogen; synthesis of some unsymmetrical aromatic azo-compounds via diazotisation of fluorinated aryl- and *N*-heteroalkyl-amines in hydrofluoric or sulphuric acid, 147

One bond $^{13}C-^{19}F$ coupling constant as criterion for fluorine back donation to an electron deficient carbocationic center; application of tool of increasing electron demand to α-fluorodiaryl carbenium ions, 319

Partially fluorinated heterocycles; formation of fused-ring 3*H*-azepine derivatives; 6,7,8,9-tetrafluoro-2,4-diphenyl-3*H*-1-benzazepine and 6,7,8,9,10,11-hexafluoro-2,4-diphenyl-3*H*-naphth[2,1-b]azapine, 109

Partially fluorinated heterocyclic compounds; plausible mechanism for formation of Fischer indole product from acetophenone 1,3,4,5,6,7,8-heptafluoro-2-naphthylhydrazone in which o-fluorine is lost, 51

Reaction of some 3- and 4-fluorooxetanes with acids, 201

Stereoregular fluoropolymers; ring-opening polymerisation of N-pentafluorophenylbicyclo[2.2.1]hept-5-ene-2,3-dicarboximide, 331

Synthesis:

facile, of perfluoro- and polyfluoro-alkyl thienyl acetylenes, 15

of F-alkyl isoxazolidines by 1,3-dipolar cycloaddition, 63

of fluorinated derivatives of glutethimide and aminoglutethimide, 81

of 3-fluoroaspartic acid, 99

and isomerization of 2,5- and 2,6-substituted *F*-hexadienes and heptadienes, 183

Thermal rearrangement of *cis,cis*-1-fluoro-2-methyl-3-vinylcyclopropane; kinetic effect of single fluorine substituent, 119

[^{205}Tl]-thallium NMR study of thallium(I) and thallium(III) fluorometalates in acetonitrile, 71

di-

Synthesis and stereoisomer separation of difluoro-[2,2]paracyclophane, 33

tri-

Organic fluorine compounds; preparation of functionalized trifluoromethylated compounds using 1-phenyl-sulphonyl-3,3,3-trifluoropropene, 171

Synthesis of 2,6-diformyl-4-trifluoromethylphenol, 23

tetra-

Photoreactions of tetrafluorodiphosphine with alkynes, 41

hexa-

ESCA investigation of low energy electron beam polymerisation of hexafluorobenzene, 419

Polymer chemistry; model compounds related to hexafluoropropene-vinylidene fluoride elastomer, 261

poly-

Polyfluoroaromatics; excursion in carbanion chemistry, 387

Reactions of N-polyfluorophenylcarbonimidoyl dichlorides with primary and secondary amines: kinetics and mechanism; synthesis of polyfluorinated carbodiimides, chloroformamidines, guanidines and benzimidazoles, 217

per-

Synthesis of perfluoroethers by liquid phase fluorination, 349

Glutethimide
and aminoglutethimide; synthesis of fluorinated derivatives of, 81
Graphite
anode reaction in KF_2HF melt, 407
some, fluorides; electrochemical reduction of, in propylene carbonate, 1

Halogeno compounds
unusual Cl-F exchange reaction on halogenoalkylthioetherketones, 365
Heteroaromatic compounds
and aromatics; some new approaches to modifying, by means of fluorine-containing substitutes, 247
Heterocycles
partially fluorinated:
formation of fused-ring 3*H*-azepine derivatives; 6,7,8,9-tetrafluoro-2,4-diphenyl-3*H*-1-benzazepine and 6,7,8,9,10,11-hexafluoro-2,4-diphenyl-3*H*-naphth[2,1-b]azepine, 109
plausible mechanism for formation of Fischer indole product from acetophenone 1,3,4,5,6,7,8-heptafluoro-2-naphthylhydrazone in which o-fluorine is lost, 51

Iron
F-alkyl iron(II) compounds, 129
Isomerization
and synthesis of 2,5- and 2,6-substituted *F*-hexadienes and heptadienes, 183
Isoxazolidines
F-alkyl; synthesis of, by 1,3-dipolar cycloaddition, 63

Ketones
unusual Cl-F exchange reaction on halogenoalkylthioetherketones, 365

Nitrogen
fluorocarbon derivatives of nitrogen; synthesis of some unsymmetrical aromatic azo-compounds via diazotisation of fluorinated aryl- and *N*-heteroalkylamines in hydrofluoric or sulphuric acid, 147
one step synthesis of NF_4BiF_6, 59

Oxetanes
reaction of some 3- and 4-fluorooxetanes with acids, 201

Phosphorous
photoreactions of tetrafluorodiphosphine with alkynes, 41
Photoreactions
of tetrafluorodiphosphine with alkynes, 41
Polymer chemistry
model compounds related to hexafluoropropene-vinylidene fluoride elastomer, 261
Polymerisation
low energy electron beam, of hexafluorobenzene; ESCA investigation, 419
stereoregular fluoropolymers; ring-opening polymerisation of N-pentafluorophenylbicyclo[2.2.1]hept-5-ene-2,3-dicarboximide, 331
Polymers
stereoregular fluoropolymers; ring-opening polymerisation of N-pentafluorophenylbicyclo[2.2.1]hept-5-ene-2,3-dicarboximide, 331
Potassium
graphite anode reaction in KF_2HF melt, 407
Propylene carbonate
electrochemical reduction of some graphite fluorides in, 1

Rare earth fluorides
formation of stabilized zirconia with, 375
Reduction
of benzotrichlorides to benzal chlorides, 359
electrochemical, of some graphite fluorides in propylene carbonate, 1

Spectroscopy
ESCA investigation of low energy electron beam polymerisation of hexafluorobenzene, 419
[^{205}Tl]-thallium NMR study of thallium(I) and thallium(III) fluorometalates in acetonitrile, 71
Sulphur
enthalpy of formation of tungsten thiotetrafluoride, 139
facile synthesis of perfluoro- and polyfluoroalkyl thienyl acetylenes, 15
organic fluorine compounds; preparation of functionalized trifluoromethylated compounds using 1-phenyl-sulphonyl-3,3,3-trifluoropropene, 171
unusual Cl-F exchange reaction on halogenoalkylthioetherketones, 365

Sulphuric acid
fluorocarbon derivatives of nitrogen; synthesis of some unsymmetrical, aromatic azo-compounds via diazotisation of fluorinated aryl- and *N*-heteroalkylamines in hydrofluoric or sulphuric acid, 147

Thallium
[^{205}Tl]-thallium NMR study of thallium(I) and thallium(III) fluorometalates in acetonitrile, 71
Thermal rearrangement
of *cis,cis*-1-fluoro-2-methyl-3-vinylcyclopropane; kinetic effect of single fluorine substituent, 119

Tungsten
enthalpy of formation of tungsten thiotetrafluoride, 139

Vinyl
polymer chemistry; model compounds related to hexafluoropropene-vinylidene fluoride elastomer, 261
thermal rearrangement of *cis,cis*-1-fluoro-2-methyl-3-vinylcyclopropane; kinetic effect of single fluorine substituent, 119

Zirconium
formation of stabilized zirconia with rare earth fluorides, 375
